What I have posted is the truth. You chose to contact my husband so that he would personally intercede for you, with "Martinez." You refer to him as "Arthur, not Sir, or Dr. Greenwood. You thank him for doing more than you ever expected blah, blah blah.

Arthur told me that you were his subordinate back on October 9, 2014 when he asked me to draft the letter for you.

I will add you ur email to the website, but my feeling is that you had an inappropriate personal relationship with my husband.

The fact that Arthur is an admitted adulterer, and an abusive manipulative liar, and an immoral, unethical creature who has broken every vow and oath he has ever taken taints those around him. One of the adulterous affairs he finally admitted to, after lying about it for years, was also with a co-worker. And like you, she proclaimed innocence and so did Arthur, for years. In those years Arthur made me the bad guy for even questioning him about his conduct.

What I wrote is what I lived. A

FYI, I have had more than enough of all of you. I am asking for a full Congressional Investigations of what Arthur's colleagues - including Dr. Poole - did to follow up on a report of domestic violence. What is the duty of a medical doctor to report domestic violence? I think you are a disgrace as a woman and as an officer, and as a doctor.

And , since you are so knowledgeable and all about th truth, what is Arthur's address where he can be served? We need an address for service of process.

As for litigation, for \$70 anyone can file suit, and sue anyone. Have at it. But be very clear, I will respond. And I may countersue for alienation of affection.

-Elaine

One last thing, that an egocentric piece of crap like you will never be able to process, is that I actually loved my husband and treasured my marriage. I hate what women like you do, I hate the wake of misery you leave behind. At the very least I think you should all be held accountable.
